Rank #3 (Only Reaseach Paper based formula)
The only formula used for sentence scoring is
Wnew = Wold + (sd * (1.5*L + 0.2*d + 0.3*e)) / length(Sentence), where
Wnew : New sentence score
Wold : Old sentence score
sd : standard deviantion of sentence scores
L : Number of legal terms in the sentence
d : Total count of numeric digits (like year, case number, act, sec, rule etc)
e : number of entities present in the sentences
Note:We haven't given higher tfidf score for the legal terms.All terms tfidf score
are given based on their occurence in the document only.
